2022-2023 School Accountability Report Card

(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Envision Academy of Arts and Technology (EA) opened in August of 2006. The mission of Envision Academy is to transform the lives of students, especially those who will be first in their families to attend college by preparing them for success in college, career, and life. In the fall of 2019, Envision Academy expanded to include middle school, beginning with enrolling its first 6th grade class.

Envision Academy's vision is to increase the number of first generation college bound students who are prepared to enter, persist through and succeed in college, and to accomplish this through a rigorous performance assessment system that is based on strong teacher student relationships, engaging project based learning, and a vibrant college going culture. This vision for what students should know and be able to do is defined further by the Core Competencies that each student develops: Collectivism; Critical Thinking; Criticality; Knowledge and Love of Self and Land; Leadership; and Self-Determination. We accomplish this mission by educating our students with Envision's nationally-recognized Portfolio Defense model, a whole-school performance assessment system in which students regularly present and defend their academic work, their growth, and their readiness to advance. Students are empowered to reach higher and go farther, to set educational goals for themselves, persist through challenges, and succeed on their chosen paths of college and career. Envision Academy offers a rigorous academic experience and a diverse, strong community. All students receiving an Envision diploma take the A-G course sequence required for them to apply to University of California (UC) and other four-year colleges. The learning environment helps students to take on challenges and experience success in high school and college. The school is rich in community involvement and provides opportunities for students to participate in multiple programs.

Students with Disabilities	17.6%

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2021-22 Teacher Preparation and Placement

Authorization/Assignment	School Number	School Percent	District Number	District Percent	State Number	State Percent

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

Authorization/Assignment	2020-21	2021-22
Permits and Waivers	1.00	0.00
Misassignments	9.00	5.70
Vacant Positions	0.00	0.00
Total Teachers Without Credentials and Misassignments	10.00	5.70

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Credentialed Teachers Assigned Out-of-Field (considered “out-of-field” under ESSA)

Indicator	2020-21	2021-22
Credentialed Teachers Authorized on a Permit or Waiver	0.00	0.00
Local Assignment Options	0.00	0.00
Total Out-of-Field Teachers	0.00	0.00

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Class Assignments

Indicator	2020-21	2021-22
Misassignments for English Learners (a percentage of all the classes with English learners taught by teachers that are misassigned)	35.3	48.2
No credential, permit or authorization to teach (a percentage of all the classes taught by teachers with no record of an authorization to teach)	26.2	35.2

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>.

School Facility Conditions and Planned Improvements

The Envision Academy high school campus is located in the former Young Women’s Christian Association (YMCA), a Julia Morgan designed building in downtown Oakland. We have 19 classrooms, a College Counseling office, administrative offices, several offices for school psychologist and mental health services, a school library, a theater/performance facility, and a small gymnasium. EA does not have a cafeteria. We are conveniently located close to public transportation, with AC Transit and BART stops within 3 blocks.

Our Middle Grades campus is located 1.5 miles away from our high school campus in a leased, private one-story facility constructed in 2016. It features large classrooms, a large multipurpose room, administrative offices, a learning center to serve diverse learners, and several spaces for counseling and mental health services, and an outdoor yard.

Our maintenance and custodial staff work diligently to keep our facilities safe, functional, and clean.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	7	16	34	40	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2022-23 Career Technical Education Programs

Envision Academy receives funding through Oakland's Measure N/H parcel tax and has used it to develop a Software and Systems Development Career Technical Education (CTE) pathway within the Information and Communication Technologies industry sector. Students engage in a Laney College Dual Enrollment course and Advanced Digital Media Art in 10th grade; AP Computer Science Principles in 11th grade; and Cybersecurity in 12th grade as part of this pathway. We also employ a Career Advisor who oversees our CTE program and offers career advice to our students.

In addition, our students participate in a Workplace Learning Experience (WLE) internship during 11th grade. In this experience, students work with an adult mentor within a field that requires a college education and that they are interested in pursuing. Students have participated in internships with teachers, doctors, business owners, scientists, politicians, filmmakers, and real estate agents, among others. The mentor works with the student on location to give the student hands-on experience of work in the field. Students complete a major project for their intern placement organization. This program gives students the opportunity to apply their learning and have a sense of what they might want to study in college. Students must meet the clearly defined WLE standards as part of Envision Academy's graduation criteria.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parents and families are central members of the Envision Academy community. To ensure parent and family engagement and participation in their students' educations, Envision Academy provides opportunities for engagement at school events such as Back to School Night, College Night, Exhibitions, Parent Listening Circles, Portfolio Defenses of Learning, and Semester Student Led Conferences. Feedback is solicited at most of these events.

Family Conferences at the end of Quarter 1, and Quarter 3 provide parents, students, and staff to effectively monitor student progress. These conferences are student-led and require the student to complete a reflection sheet prior to the conference. Students then lead their parents through a series of data points to ensure both student and parent understand the student's progress, areas of growth, and steps moving forward.

Our Family and Community Engagement Coordinator and our administrators share achievement and culture data with parents at several PLT meetings throughout the year. Data we've shared includes Reading Plus grade level reading data and growth, attendance data and trends, and GPA data and trends. We also share data at our Annual LCAP Family Engagement Meeting, where we share those same data points, as well as graduation rates and college acceptance rates. At the LCAP Family Engagement Meeting, we invite family members, students, and staff to work together in small groups to discuss the data, the needs that may underlie the data, and to brainstorm interventions and actions we might take towards improvement.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school Dropout Rates;
- High school Graduation Rates; and
- Chronic Absenteeism

2023-24 School Safety Plan

Envision Academy is a small school that is purposeful about creating a safe and positive learning environment. By virtue of our small school size, low teacher-student ratios, and Advisory program, we are able to leverage our relationships with students to increase academic performance and enhance our overall sense of safety and community. Security is very important to us. All visitors need to be admitted through the front door by a school staff member, and go to the front office to sign in.

Each student has an Advisor who they can consult with regarding academic/social/personal concerns. The school meets once a month for community meetings to communicate about important school-wide issues affecting students, including safety concerns.

Our School Safety Plan addresses student and staff protocol in case of fire, earthquake, intruder, and other emergencies. We share this information with staff at staff meetings, reinforced through email and written charts and diagrams posted in their classrooms. Staff members train students and debrief with them to improve our practice each time we have a drill.

We have worked very hard to make sure that Envision Academy is prepared for emergencies. We have trained all staff on protocol for specific situations (as stated above), and staff, in kind, have trained students. We also collaborate with the Alameda Office of Education and our insurance company in building walk-throughs to seek out and remediate any potential risks.

The school's administrative team meets weekly, and includes safety planning and issues in our agendas. In addition, administrators and the learning specialists get trained and certified in CPI (Crisis Prevention & Intervention). We consider any issues that arise and work as a team to fix them in a timely manner. We aim to be proactive in preparing for emergencies.

Professional Development

Envision Academy has built a vibrant professional learning community through meaningful professional development, dedicated time for collaboration, and effective coaching.

Individual Teacher Improvement: All teachers at Envision Academy are assigned a coach. This coach may be the Humanities Coach, the Principal, or the Vice-Principal. Coaches work with the teachers to set instructional improvement goals, visit classrooms, and meet with the teacher on a weekly or biweekly basis. Coaches also assist teachers in analyzing data from their classroom and Common Interim Assessments to identify areas of strength and areas of growth in student learning for the purpose of targeted reteaching. All coaches have attended professional development through the Relay Graduate School of Education to norm around a coaching model and ensure teachers are growing in their practice.

Staff Development: The entire staff engages in cycles of inquiry during weekly professional development meetings. These cycles have been led by teacher teams and supported by central office staff. The topics of this year's cycles have been focused on improving academic culture and instructional practice. We have also engaged in conversations about race and equity as a staff to better serve our students and be responsive to all of our school community.
